PROFESSIONAL SUMMARY

Frontend Developer with a strong foundation in modern web technologies and a proven ability to build complex, production-ready applications independently. Experienced with Next.js, React, TypeScript, and full-stack tooling. Demonstrated ability to work without external resources — built multiple internal applications entirely offline during military service. Fast learner who adapts quickly to new technologies and thrives in challenging environments.

TECHNICAL SKILLS

Frontend: React, Next.js 15/16, TypeScript, JavaScript (ES Modules), Tailwind CSS, React Query, React Hook Form

Backend & Databases: Node.js, Express, Prisma ORM, MongoDB, PostgreSQL, MySQL, SQLite

Tools & Platforms: Git, GitHub, Docker, Vite, Vercel, Clerk (Auth), Vapi, ElevenLabs, Google Gemini, Vercel Blob

Languages: Arabic (Native) • English (B2 — Upper Intermediate)

PROJECTS

Bookified GitHub →

A voice-first AI book companion platform enabling real-time conversations with books via AI-powered voice interactions.

Stack: Next.js 16, TypeScript, MongoDB, Tailwind CSS, Clerk, Vapi, ElevenLabs, Google Gemini, Vercel Blob

Edu Nexus GitHub →

A comprehensive school management dashboard with role-based portals for administrators, teachers, students, and parents — covering schedules, exams, and results.

Stack: Next.js, TypeScript, React Query, React Hook Form, Prisma, PostgreSQL, Tailwind CSS, Clerk, Docker

Cash Withdraw — Fawry Cash Management GitHub →

A full-stack cash operations dashboard for daily treasury tracking, customer account management, and multi-channel transactions (Cash, InstaPay, Vodafone Cash, Fawry). Features PIN-based auth, PDF generation, WhatsApp sharing, and an Arabic-first RTL UI.

Stack: React 19, Vite, Tailwind CSS, Node.js, Express, Prisma, SQLite, html2pdf.js

EXPERIENCE

React Developer Intern | *Information Technology Institute (ITI)* | 2024

- Completed ITI's intensive React development training program
- Earned a certificate upon successful completion of the program

Software Developer | Military service | 2025

- Built multiple internal web applications entirely offline and without internet access, demonstrating strong self-sufficiency and problem-solving ability
- Delivered functional tools that streamlined internal administrative operations

EDUCATION

Postgraduate Diploma in Computer Science | 2025 – 2027

Cairo University — Faculty of Graduate Studies for Statistical Research

Bachelor's Degree in Management Information Systems | 2020 – 2024

Higher Institute for Specific Studies

CERTIFICATIONS & COURSES

- **The Complete Web Developer: Zero to Mastery (Udemy)**
- CS50 — Introduction to Computer Science (Harvard University)
- SOLID Principles in Software Design (Self-study)
- Extensive self-directed learning in modern web development, AI integrations, and full-stack architecture
