PROFESSIONAL EXPERIENCE

Full Stack Developer | ElectroPi (Enterprise AI) | *Jun 2026 – Present* · 1,300+ commits, 10+ repos

- **MODRB (AI Trainer):** Built the Next.js 16 portal and Express 5 / Prisma / PostgreSQL API for an enterprise platform where an AI trainer runs live coaching sessions in Microsoft Teams: training-plan and track wizards, scheduling, per-outcome reports, Microsoft Entra SSO, and pg-boss background jobs.
- **Medswarm:** Built the React 19 clinical decision-support dashboard and its Express REST API (auth, audit log, contract mapping to the AI service) plus a mock HIS for integration testing; physicians approve or reject each AI suggestion before write-back.
- **Land & Lead:** Built a bilingual (AR/EN, full RTL) Next.js 15 CRM for a WhatsApp AI sales agent (lead pipeline, conversation viewer, knowledge base, analytics, HMAC-signed webhooks), then extended it into an omnichannel agentic call-center platform with pg-boss workers and OpenTelemetry.
- **Alcamp:** Built the React 19 frontend of a two-sided hiring marketplace with role-based JWT auth, an applicant-pipeline state machine, interview and offer lifecycle, and real-time SignalR notifications.

Frontend & Full-Stack Developer | Freelance | *2023 – 2026*

- Architected and delivered 2 commercial production systems (e-commerce platform + financial management tool) covering UI, backend integration, authentication, and Vercel deployment.
- Integrated Algolia instant search and NextAuth.js (Google OAuth + email); built responsive RTL Arabic UIs approved first-pass by clients.

Software Developer | Military Service — Internal Systems | *2024 – 2025*

- Built 3 enterprise web applications offline (air-gapped environment), fully digitizing paper-based exam, clinic, and fax workflows for 30+ users, including an automated exam platform with instant grading.

PROJECTS

Retail ERP — Shop Management System *Next.js 15 · TypeScript · Prisma · PostgreSQL · NextAuth · Zustand · React PDF*

- Arabic-first RTL ERP for retail shops: sales and purchase invoices, inventory with low-stock alerts, customer and supplier ledgers, financial reports, and printable PDF statements.
